

Discount Calculator

- During special sale at a store, a 10% discount is given on Purchas over Rs 1000/-. Write a program that asks for the amount of Purchas, then calculates the discount price.

- Now double click on boundary the push **jButton1 (Calculate Button)**. The code editor window will get open. In it, simply type the following code.

```
1.    double amt = Double.parseDouble(txtamt.getText());
2.    double disc;
3.    if(amt > 1000)
4.    {
5.        disc = 10;
6.    }
7.    else
8.    {
```

```
9.         disc = 0;
10.    }
11.    double discount = amt * disc/100;
12.    double totalprice = amt - discount;
13.    txtdisc.setText(""+disc+"%");
14.    lblprice.setText(""+totalprice);
```
